IP65 Stainless Steel Disinfection Light

Product Code: INP-SS-975-110

Product Overview

The UVC stainless steel disinfection light is designed to reduce air and surface contamination in unoccupied rooms and areas. The units can be mounted within food production facilities, cold stores, inside conveyor systems or above existing production lines, providing versatile and effective sterilisation solutions. Constructed from high-quality stainless steel and IP65 rated, the unit offers durability and corrosion resistance, making it suitable for demanding environments.

Technical Data

Wattage	110W
UV source	2 x UVC 55W T8 Lights
UV peak output	254nm \pm 5nm
Lamp lifespan	9,000 hours
Start-up-time	< 2 Minutes
Working temperature	0-50°
Power supply	100 - 240 V, 50 - 60 Hz
IP rating	IP65
Body material	Stainless steel
Dimensions	975x130x80mm
Weight	3.2Kg

Included

Mounting brackets
Operating manual
Health and safety guidance

UV Health & Safety Services

Employers have a legal obligation to ensure the safety and protection of workers who may be exposed to artificial optical radiation (AOR) in their workplace. Our health and safety services are designed to help you and your company achieve compliance. Visit uv-light.co.uk for full details.
